Our compilation is limited to presenting in the form prescribed by the Public Service Commission of Wisconsin information that is the representation of management. We have not audited or reviewed the financial information referred to above, and accordingly, do not express an opinion or any other form of assurance on them. This financial information was compiled by us from the financial statements for the same period that we previously audited, as indicated in our report dated February 27, 2001.

2000 Analytical Review DWCCA-670-PJL

Dear Ms. Ecker:

The Public Service Commission staff is in the process of completing an analytical review of your utility's 2000 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that this review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. Please explain what was leased to produce the \$1,605 described as "Lease Income" which is reported in Account 421, Miscellaneous Non-operating Income on page F-2.
2. During our review we noted that according to our calculations, the amount the utility reports for public fire protection service billed per Rate Schedule F-1 in Account 463 on the Other Revenues (Water) schedule, page W-4, differs from our calculation by \$897 (see enclosed worksheet). It appears that the utility is including the 2,990 feet of supply main in their calculation. Please note that the F-1 rate schedule states that only transmission and distribution mains be included in the number of feet of mains entered in the calculation. Please confirm that our method of calculation will be used in the future.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient

for you to do so. My e-mail address is leegep@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege
